

WRIGLEY'S

THE PERFECT GUM

Let us make you acquainted with the new, luscious flavor—

It's all that the name suggests!

Wrigley quality—made where chewing gum making is a science.

Now three flavors:

Have a package of each always in reach

Don't forget
WRIGLEY'S
after every meal

JF 1

EAST CABOT

The heavy wind of last Tuesday put the telephone line out of commission and it was not in working order until Thursday afternoon.

Edward Cross of Williamstown was a recent business visitor here.

Mrs. R. S. Barr and Mrs. W. D. Barr were at Cabot one day last week.

Mrs. Merton Briggs and Mr. and Mrs. George Durette and sons of Marshfield were at George Drew's one day last week.

J. P. Hutton spent last week at Springfield, Mass., where he went to attend the national dairy show.

Charles Austin went Saturday to Manchester, N. H., to visit his parents, Mr. and Mrs. John Austin.

Mrs. William Walker returned Sunday to her home at Whittier hill, Cabot, after a week's stay at W. I. Abbott's.

Mr. and Mrs. Ira Reed were recent guests of Mr. and Mrs. Fred Marsh at Cabot.

There was a reception tendered Mr. and Mrs. Guy Davenport at his mother's, Mrs. Etta Davenport, Saturday evening.

Mrs. Charles Balentine and children have returned to their home at Calais after a few months' stay at her father's.

Enos Hopkins spent Sunday at Calais.

M. E. Beckley of Groton was in this place Thursday, repairing the telephone lines.

Mrs. Mary Lavanway and Miss Georgiana Kelley of East Montpelier were recent guests at William Kelley's.

Mr. and Mrs. Henry Hill and two of their children of Hardwick were at Gilbert Hill's Tuesday.

W. D. Barr spent Friday at Danville on business.

Miss Mabel Chamberlain of Ryegate was in this place one day last week.

Gilbert Hill and son, Fred, spent Wednesday at St. Johnsbury.

Chester Eaton of West Danville was at Maple Dell farm several days last week.

George Houghton and family and Bert Houghton of Cabot were at S. E. Houghton's Sunday.

F. S. Hall of Windsor was a business visitor here one day last week.

Mr. and Mrs. W. I. Abbott returned Monday morning from Springfield, Mass.

Ozias Pitkin of Marshfield was at Ira Reed's surveying one day last week.

Children Cry for Fletcher's

CASTORIA

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of *Dr. J. C. Fletcher* and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-good" are but experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

What is CASTORIA

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. It destroys Worms and allays Feverishness. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic, all Teething Troubles and Diarrhea. It regulates the Stomach and Bowels, assimilates the Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

GENUINE CASTORIA ALWAYS

Bears the Signature of

Dr. J. C. Fletcher

In Use For Over 30 Years
The Kind You Have Always Bought

THE CENTAUR COMPANY, NEW YORK CITY.

OHIO CAN BE SAVED

But It Will Require a Militant Campaign to Do It

REPUBLICANS AT LAST AROUSED

State Leaders Want Hughes, Root, Lodge and Roosevelt

New York, Oct. 24.—Republicans of Ohio at last appreciate the fact that the presidential campaign in their state has been grossly mismanaged and that the Wilson talk is something more than talk. Now comes the demand that puffyfooting be stopped and that orators who will hit straight from the shoulder be sent to the Middle West. Governor Hughes is asked to go there and say what he wants to say in the way he wants to say it. There is call, too, for Roosevelt, for Lodge and for Root. The state can be saved, but there must be a militant campaign.

To the denials of Mr. Hughes and Mr. O'Leary is added the denial of Frank Seiberlich of Boston, who also declares that the Republican nominee made no promises to the committee from the American Independence conference.

The state of Iowa will be safely in the Republican column. It is having a pretty prohibition fight, but apathy marks its national campaign. The two Dakotas, too, it is expected, will give their electoral votes to Governor Hughes.

FALSEHOOD OF THE DEMOCRACY

Presidential Candidate Hughes Did Not Apologize for or Criticize Roosevelt.

New York, Oct. 24.—A telegram from Frank Seiberlich of Boston was given out here yesterday by the Republican national committee in support of the denial by Charles E. Hughes Sunday night of the Democratic national committee's charge that the Republican presidential candidate entered into an agreement with the American Independence conference, of which Seiberlich and Jeremiah A. O'Leary are members.

The telegram reads:

"The statement made by Mr. Hughes relative to conference with committee of the American Independence conference is absolutely untrue."

"Mr. Hughes saw the committee, of which I was a member, made no promises, did not criticize Theodore Roosevelt, and made statement to the committee that he stood for all American rights."

William R. Willcox, Republican national chairman, said in making the telegram public that it was a voluntary message, unsolicited by the national committee.

ONLY 10 TO 9 HUGHES NOW.

Bet of \$1,000 to \$900 Made Yesterday—Whitman Still 10 to 9.

New York, Oct. 24.—Odds in favor of Hughes shortened in Wall street yesterday to 10 to 9. One wager of \$1,000 was placed on Hughes against \$900 on Wilson. These odds of 10 to 9 compare with 10 to 8 of last week.

According to one stakeholder on the curb there is plenty of Wilson money about, but backers of the president want \$8 to 10 mostly, so that little actual betting is being done. On the other hand, some curb commissioners refuse to offer more than even money on Hughes.

Vagers have been made in the financial district recently that Hughes would carry Illinois, Ohio and Missouri.

Bets are still being placed on Whitman at 10 to 9. Seabury supporters ask 10 to 7.

POWDER PLANTS ARE TO BE DYE HOUSES AFTER WAR

The Du Pont and Etna Companies Announce Completion of Plans.

Washington, Oct. 24.—The Du Pont Powder Co. and the Etna Explosives Co., large munitions concerns, yesterday announced the completion of plans for transforming all extra plants into dye manufacturing with the close of the war.

Plans were perfected with the assistance of Dr. F. D. Norton, dye expert of the commerce department. Both concerns have built large auxiliary plants since the war began to meet the enormous demand for munitions.

COAL MEN LOSE THEIR FIGHT.

U. S. Supreme Court Refuses to Review Indictments Against Them.

Washington, Oct. 24.—The supreme court yesterday refused to review indictments brought against James R. Smith and other officials of the Western Fuel Co. of San Francisco, for conspiracy to defraud the United States by manipulating scales used for weighing dutiable coal.

The Treatment of Influenza or La Grippe

It is quite refreshing these days to read of a clearly defined treatment for influenza or La Grippe. Dr. James Bell of New York City says he is convinced that too much medication is both unnecessary and injurious.

When called to a case of influenza, the patient is usually seen when the fever is present, as the chill is usually absent. In such cases, he has practically passed away. Dr. Bell then orders that the bowels be opened freely with salts. "Acetol" or citrate of magnesia. For the high fever, severe headache, pain and general soreness, one anti-kammit tablet every three hours is quickly followed by complete relief. Ask for A. S. Tablets. They are also useful for headache, neuritis and all pains.

FAMILY DOCTOR'S GOOD ADVICE

To Go On Taking "Fruit-a-tives" Because They Did Her Good

ROCHESTER, Jan. 14th, 1915.

"I suffered for many years with terrible indigestion and constipation. I had frequent dizzy spells and became greatly run down. A neighbor advised me to try 'Fruit-a-tives'. I did so and to the surprise of my doctor, I began to improve, and he advised me to go on with 'Fruit-a-tives'."

I consider that I owe my life to 'Fruit-a-tives' and I want to say to those who suffer from indigestion, constipation or headaches—try 'Fruit-a-tives' and you will get well". CORINE GAUDREAU. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ogdensburg, N.Y.

Vermont Boys and Girls Take Many Prizes at Springfield, Mass.

The boys and girls of Vermont, representing the club department of the Vermont agricultural extension service, through their products and their meritorious achievement in demonstration work and in judging, made records to their credit at the national dairy show and eastern states agricultural and industrial exposition.

Vermont boys and girls won a total of 56 prizes—48 being on exhibits and eight on judging.

In the exhibits, Vermont took 13 firsts, 19 seconds, 15 thirds and one sweepstakes.

In the judging contests, Vermont teams took two seconds and one fourth; individuals took one third, one seventh, one 11th and two sweepstakes.

In the demonstrations there were no prizes, but Vermont teams received special commendation in the pig demonstration, canning and handicrafts.

The sweepstakes were for judging potatoes and handicrafts, and for exhibit in poultry.

Vermont exhibited six pigs; four of these pigs took prizes.

Vermont entered four boys in dairy judging and three of the four won prizes. The complete list of prize winners:

Market garden—Collection 3d, Hermon Robb, West Brattleboro.

Potatoes—Green Mountain, 2d, Alvan Ball, Randolph Center. Carmen, 1st, Burton Richardson, Brattleboro; 2d, Harold L. Poor, Randolph Center. Gardner Green, Randolph Center. Delaware, 2d, Merton H. Mack, Acuteville.

Corn—Pop, 2d, F. Clifton Howard, West Woodstock.

Canning—Six quart jars of different products, three being vegetables, two fruit and one green: 3d, Beryl Young, Lyndon. Gladys Coulter, Shaftsbury. Largest and best collection of fruit and vegetables by any one club, one jar only of each variety: 1st, Lyndon Home Project club, Lyndon.

Bread—2d, Doris Brown, Burlington; 3d, Marguerite Nixon, Brattleboro. Sarah Gilson, Hartland.

Garment making—One article hand-made, two articles combination of hand and machine work: 2d, Maude Gray, Lyndon Center. Ruth Blodgett, Lyndonville; 3d, Elizabeth Crane, Brattleboro. Margaret Tobin, Swanton.

Poultry—Eggs, Barred Rocks, 1st, Katherine E. Harrington, Randolph Center. Rhode Island Reds, 1st, Ann Brockway, Randolph Center. Trios (chickens), Single Comb Rhode Island Reds, 2d, John A. Alexander, South Royalton. Barred Plymouth Rocks, 2d, John A. Alexander, South Royalton. Miscellaneous, 1st, Rose Comb Buff Lough chickens, 1st, Pauline E. Willis, Brattleboro. R. F. D. No. 3. Stories, "How I Raised My Chickens," 2d, Bertha E. Belknap, Cavendish.

Dairy judging—3d, Richard R. Briggs, Brattleboro; 7th, Ralph Balentine, East Calais; 11th, A. Dewey Spooner, Barre.

Handicrafts—Rope tying and splicing, 2d, Sherburne Potts, St. Johnsbury. Seed testing, 1st, Orrie Jenks, St. Johnsbury; 2d, Beatrice Young, Lyndon. Brooder, 1st, Nathan Pike, St. Johnsbury. Trap net, 3d, Martin Foye, St. Johnsbury; Fly trap, 3d, Martin Foye, St. Johnsbury. Bird house, 1st, Linwood Thomas, St. Johnsbury; 2d, Martin Foye, St. Johnsbury; 3d, Errol Foster, Lyndon. Handy ladder, 1st, Nathan Pike, St. Johnsbury; 2d, Maurice Barrett, St. Johnsbury. Milk stool, 1st, Errol Foster, Lyndon; 2d, George Wilkins, St. Johnsbury. Ironing board, 2d, Raymond Drew, St. Johnsbury. Story, 1st, Errol Foster, Lyndon.

Pig—Over six months, 3d, Dana B. Goodrich, Essex Junction. Under six months, 1st, Philip Hooker, Brandon; 2d, George E. McAllister, North Hyde Park; 3d, Reginald Mumley, Fairfield farm, Northfield. Story, "How I Raised My Pig," 1st, Dana B. Goodrich, Essex Junction; 2d, Merle Carpenter, Colchester; 3d, Alma Leland, North Springfield. Philip K. Hooker, Brandon. R. D. Francis Macomber, Westford.

Sweepstakes in exhibit—Brown eggs, Ann Brockway, Randolph.

Sweepstakes in judging—Handicrafts, Sherburne Potts, St. Johnsbury. Potatoes, Harold L. Poor, Randolph Center.

Teams winning in judging contests—Poultry, 2d, John H. Vendell, Windsor. John A. Alexander, South Royalton. Bertha E. Belknap, Cavendish. Handicrafts, 2d, Sherburne C. Potts, St. Johnsbury. Orrie Jenks, St. Johnsbury. Stanwood Brooks, St. Johnsbury. Potatoes, 4th, Otis C. Chedivich, Randolph Center. Harold L. Poor, Randolph Center. Edward C. Melby, Ferrisburgh.

WASHINGTON COUNTY FARM BUREAU ASSOCIATION.

Report for Week Ending Oct. 21.

Four days of this week were spent at the national dairy show at Springfield, Mass., hence this week's report will be a sort of a summary of observations made at the show. This is not a newspaper report of the proceedings, but is intended to represent as well as possible the lessons that it was possible to learn about the different breeds of cattle and the judging of them. With a total of 1,100 animals entered for prizes there were unlimited chances of studying breed characteristics and individuality. With such a great number of cattle and so short a time it seemed best to adopt a kind of system of observation which would result in the most good and the most correct conclusions. The county agent was pleased to note that a number of the farmers followed the judging of the different classes closely during the day-time while they were in the ring, marking the winners in the catalogues furnished and trying to place the winners before the judges placed the ribbons, the farmer could very soon get a pretty good line on the conformation and character which the judges were looking for in the cattle. After the judging was over for the day (and this seemed the logical method to pursue) a great many took their catalogues and went to the barns to look up the winners in the different classes in order that they might be looked over at a closer range and the character noted more particularly.

In the beginning it might be said that most judges freely admit that the cow that wins in the show ring may not be the one that will win at the pail. However, it was remarked by a prominent breeder at one of the breed banquets during the week that "it is my belief that it is entirely possible to combine high production with good conformation, quality, beauty of appearance, and I believe that every breeder of pure bred cattle will be lending a hand to the general progress of our breeding if he will keep this thing in mind."

As was indicated by the programs, a day was devoted to the judging of each breed. This being a dairy show only the five dairy breeds were present. With the exception of the Brown Swiss the standard of excellence for each breed is very nearly the same. Talks with the different judges revealed the fact that they all look for about the same conformation and quality. Of course there are a few characteristics which are particular to each breed, the fine head, neck and shoulders with rather small size goes with the Jersey, the Guernsey has a rather longer head and tends to be rather coarser over the shoulders, than the Jersey. Size is one of the main characteristics of the Holstein. Aside from these few different characteristics the type of conformation, quality, etc., along with the udder formation in particular were points considered by the judges.

It was noticed that the merits of the cows along three lines mainly were the foundations upon which the judges made the awards. First of these was udder formation, the udder should be large, but not fleshy, and of good shape, carried well up behind and outforward, with well placed teats. In one class of Holsteins one cow was thrown out after being milked in the ring because of the mealy quality of the udder, which is undesirable. Second, the merits of conformation seen to be considered. The cow broad on the loins, deep in the flank, thick through the thorax showing capacity and having a nice straight back line which adds wonderfully to the pleasing appearance of the animal were the winners. Third, there is the point of constitution, along which line too much emphasis cannot be placed. Constitution is measured by heart girth mainly. Heart girth means large size directly behind the forward legs, the ribs should spring very rapidly at this point, making room for the large lung capacity and heart action. The backbone should come well up between the shoulder blades so as to make a thin wether.

The awards for Jerseys went mainly to Connecticut, the Ayrshires to Maine, the Guernseys and Holsteins to the Middle West.

Many farmers ask the question, "Is the breeding of these animals by money men an advantage to the ordinary small farmer?" At first consideration it would seem that the prohibitive high prices which these men are paying for themselves for the specially desirable cattle would eliminate the small breeder or man who is farming for a living from obtaining animals representing this class of stock. The writer thinks, however, that in the end this circumstance will prove of great value. These men have bred and improved the stock so much more rapidly than could have been done otherwise. The high producing cows in all breeds are much more numerous than they were 10 years ago and more and more they are coming into the possession of the ordinary farmer. The price of a well bred bull of any breed is not now prohibitive to the ordinary farmer and the value which he represents when used in a grade herd is astounding. In connection with this it is well to mention the tremendous value which the breed associations have been, in keeping advance registry records so that the buyer can know what he is buying when he goes out to purchase a registered bull. Our cow testing associations are doing the same line of work in the grades and the time is rapidly coming when the first question the buyer will ask is "Do you keep records? How much did this or that cow produce last year in butter fat or milk?"

Due to the fact that the characteristic of high production can be perpetuated by breeding good animals of individual high production we are able to keep on increasing our herd production and raising the average by using bulls that have generated from such unions. "Remember, the bull is half of the herd." Your first crop of calves contains one-half the blood of the sire. If his ancestry are good producers it means profit, an increase in your herd production; if his ancestry are medium producers it will mean a lowering of your herd average and production and the loss of three or four years in your breeding.

Big breeders are constantly emphasizing these points in actual practice trying to perpetuate high producing stock by breeding together families of individual high production. A talk with C. I. Hood at the show revealed the fact that Sophie 19th, the highest priced cow in the world, is not for sale and may never be. Mr. Hood has been offered \$25,000 for her but will not sell because he is trying to perpetuate her blood in his herd. He already has two bulls from this cow out of different sires and is in hopes to get another one from a third sire, in which

WASHINGTON COUNTY FARM BUREAU ASSOCIATION.

Report for Week Ending Oct. 21.

Thousands of people normally healthy in every other respect, are annoyed with a persistent hanging-on bronchial cough year after year, disturbing their sleep and making life disagreeable. It is so needless—there is an old home-made remedy that will end such a cough easily and quickly.

Get from any druggist "2 1/2 ounces of Pinex" (50 cents worth), pour it into a pint bottle and fill the bottle with plain granulated sugar syrup. Begin taking it at once. Gradually but surely you will notice the phlegm thin out and then disappear altogether, thus ending a cough that you never thought would end. It also promptly loosens a dry or tight cough, stops the troublesome throat tickle, soothes the irritated membranes that line the throat and bronchial tubes, and relieves almost immediately. A day's use will usually break up an ordinary throat or chest cold, and for bronchitis, croup, whooping cough and bronchial asthma there is nothing better. It tastes pleasant and keeps perfectly.

Pinex is a most valuable concentrated compound of genuine Norway pine extract, combined with gualiac and is used by millions of people every year for throat and chest colds with splendid results.

To avoid disappointment, ask your druggist for "2 1/2 ounces of Pinex" with full directions and don't accept anything else. A guarantee of absolute satisfaction or money promptly refunded. Write for this preparation. The Pinex Co., Ft. Wayne, Ind.

SCARED TO DEATH BY GREAT SEAS

Assistant Keeper at Brenton's Reef Was Driven Into Frenzy By Gale.

Newport, Oct. 24.—A case of a man literally frightened to death was reported here yesterday. Gustav Ljunvall went to Brenton's reef lighthouse as an assistant keeper last Wednesday, but before he had time to become accustomed to his surroundings the wind became a gale, accompanied by great seas and the ship pitched at disturbing angles.

Ljunvall complained of fears that the ships would go down. In a frenzy he tried to jump overboard, but was restrained. His violence increased and the crew, after a struggle while the storm raged about them, put him in an improvised straitjacket. A report of his death on Saturday was brought here yesterday with the man's body.

STOP THAT COUGH NOW!

DR. STANBURY'S THROAT AND LUNG HEALER

is a natural specific for all affections of the throat and lungs—Long standing hacking coughs, sore throat, asthma, catarrh, chronic weakness, etc., etc., in all cases of consumption are checked by its properties and tendencies toward permanent illness eliminated.

A bottle in the house when the cough starts may prevent the beginning of a serious disease.

On sale in 25c. and \$1 bottles at this store in Barre, Vermont; Cummings & Lewis, Groton; and by mail, prepaid, on receipt of price by W. H. Dornburgh, Schenectady, N. Y.

LITTLE PIMPLES ON FACE, NECK

And Hands. Became Scaly and Skin Was Sore. Ashamed To Go Out. Lasted Three Months.

HEALED BY CUTICURA SOAP AND OINTMENT

"One night before retiring I was troubled with an itching and in the morning I found that my face was all broken out with little pimples, and then they came on my neck and hands. The pimples became scaly and my skin was so sore that I had to bathe it with cold water to keep the pain down, and I scratched and my face became erupted. I was so red and sore I was ashamed to go outdoors at all. It lasted about three months."

"I tried—and—to no purpose. A friend told me to try Cuticura Soap and Ointment so I did, and after using three cakes of Cuticura Soap and one-half a box of Cuticura Ointment I regained my complexion, and was completely healed." (Signed) Miss Helen Lynn, 39 Tyler St., Nashua, N. H., Aug. 27, 1915.

Sample Each Free by Mail

With 22-p. Skin Book on the treatment of the skin and scalp. Address post-card "Cuticura, Dept. T, Boston." Sold by druggists and dealers throughout the world.
